Hi there! I'm Manick Jamadar, a passionate and skilled full stack web developer with 3 years of hands-on experience in crafting dynamic and user-centered digital solutions. I am particularly specialized in frontend development, backend development and UI UX design. My expertise spans the entire web development spectrum, from understanding users needs -> Plan -> Design -> Develop -> Test -> Deploy Solutions I'd love to hear from you! You can reach me by sending an email to contact@manickjamadar.com.

WORK EXPERIENCE

Promptyland • 05/2023 – Present

Full Stack Developer

- Promptyland is an AI Prompt marketplace for modern world to create, share and explore creative prompts

Nessvel • 01/2020 – 04/2023

Full Stack Web Developer

- As a Full Stack Web Developer at Nessvel, I have the privilege of collaborating with diverse clients and bringing their app ideas to life. With a strong focus on crafting exceptional app experiences, I leverage my expertise in full stack web development to deliver high-quality and scalable solutions

EDUCATION

Degree in Software Development

Academind • 01/2017 – 01/2020

PROJECTS

Stepper Challenge

I have participated in stepper coding challenge conducted by Colt Steele on his youtube channel. It was a great learning experience

Change Default

It helps to Convert `exports.default` to `module.exports` for all .js files in specified directories recursively

Personal Website

It's a digital mirror reflecting my devotion to software development and design. Explore my journey, projects, and skills all in one sleek virtual space

Performance Monitor

Performance Monitor: A full-stack application for real-time server monitoring. Track server info and performance with a React frontend and a Node.js backend. Get insights into CPU, memory, disk usage, and network activity. Scale to monitor multiple servers from a single UI.

Prompty Land

Promptyland is an AI Prompt marketplace for modern world to create, share and explore creative prompts

CSS Injector

Inject css rules to style tag of document head dynamically with javascript. User can select whether to insert to top or not also

Freedom Calculator

It helps users to calculate the required savings to achieve financial freedom and effectively plan their path to financial independence

SKILLS

Code Review, Cypress, Data Structures, Express.js, Figma (Software), Framer Motion, Git, HTML, HTML5, JavaScript, Jest, Material-UI, MongoDB, Next.js, Node.js, React js, REST APIs, Software Development, Tailwind CSS, TypeScript
