👛 PROFESSIONAL EXPERIENCE

📌 Prompty Land

Full Stack Developer

2023 – present | Remote

Prompty Land is an AI Prompt marketplace for modern world to create, share and explore creative prompts. I have created this to solve the problem of finding good prompts

📌 Nessvel

Full Stack Developer

2020 – 2023 | Remote

As a Full Stack Web Developer at Nessvel, I have the privilege of collaborating with diverse clients and bringing their app ideas to life. With a strong focus on crafting exceptional app experiences, I leverage my expertise in full stack web development to deliver high-quality and scalable solutions

📁 PROJECTS

📌 Prompty Land

Promptyland is an AI Prompt marketplace for modern world to create, share and explore creative prompts

📌 Freedom Calculator

It helps users to calculate the required savings to achieve financial freedom and effectively plan their path to financial independence

📌 Personal Website

It's a digital mirror reflecting my devotion to software development and design. Explore my journey, projects, and skills all in one sleek virtual space

📌 Performance Monitor

A full-stack application for real-time server monitoring. Track server info and performance with a React frontend and a Node.js backend. Get insights into CPU, memory, disk usage, and network activity. Scale to monitor multiple servers from a single UI.

📌 Stepper Challenge

I have participated in stepper coding challenge conducted by Colt Steele on his youtube channel. It was a great learning experience

📌 CSS Injector

Inject CSS rules to style tag of document head dynamically with Javascript. User can select whether to insert to top or not also

📌 Change Default

It helps to Convert exports.default to module.exports for all .js files in specified directories recursively
